BESPOKE

**Low Minimum Quantity, Competitive Prices & Short
Lead Times**

Our Bespoke Clothing service could be just what you are looking for.

Differentiation is what makes a brand memorable – we are experienced in creating and manufacturing styles that your staff will love to wear. We will elevate the profile and brand image of your company with individuality and attention to detail. From the most intricate trim detailing to simplistic designs; we are passionate about getting it right.

WHAT WE CAN DO - IT'S ALL IN THE DETAILS

DESIGN MEETS CONVENIENCE

Our bespoke clothing is the most convenient channel of customisation. You can explore unlimited bespoke possibilities, and experienced personnel can suggest the best options to deliver to your customisation needs on time.

LEAD TIMES*

One of our core strengths lies in shorter bespoke lead-time. Our lead time is 10-12 weeks from confirmed purchase order subject to/dependent on information provided, complexities and work involved.

BRINGING BRANDS BACK TO LIFE

Choose a simple modification to any of our stock range. Whether it be Polo shirts, Sweatshirts, Fleece Jackets, Tracksuits, Rugby Shirts and T-Shirts, we are happy to help. We also offer the option of your own design; you can virtually create any design you like. We can turn your virtual design into reality by means of a physical sample.

MINIMUM ORDER QUANTITY

We offer an extensive selection of stock fabrics that are immediately available for manufacturing. For most of our products like Polo shirts, Sweat shirts and Fleece etc. we offer low minimum order quantities of 500 pieces per colour, per style, across sizes. The minimum order quantities are subject to change upon your customisation requirement.

CONSISTENCY

We are consistent by means of producing quality yarn for all of our fabrics. This enables us to reproduce the exact hand feel, weight, quality and colour for repeat orders every time.

BESPOKE FAQ's

1. Can you manufacture products like Polo shirts, Sweatshirts and Fleeces based on my required specifications like pantone dyed shade and design?

Yes, we can cater to your required design and specification for any of our products. There are no limitations in what you can achieve in bespoke with us.

2. What is the minimum order quantity for bespoke garments?

We can incorporate quantities of less than 500 pieces per color per style but specs like shade, fabric composition, GSM etc. must be based on our stock standard products otherwise for bespoke specs the minimum order quantity starts from 500 pieces per color per style across sizes for Polo, sweatshirts and fleeces. The minimums are subject to change upon your requirements.

3. What is the lead time for the bespoke order?

Our lead time is 10-12 weeks from the receipt of the official purchase order. The production lead time is subject to change based on the complexity of the design and the production slot available with the factory.

4. Do you have in-house printing and embroidery services?

No, we do not have in-house printing and embroidery services but we do offer this service with the factories overseas. This is an advantage as it keeps this cost to minimum as compared to what would have in UK.

5. What information should I provide to receive price quote for bespoke?

The information is subject to your required specs but we have a very simple bespoke enquiry form to ensure accuracy in prices. This can be downloaded from our websites bespoke section.

6. What details should I provide to have prices for embroidery and print?

For embroidery, we would either require the embroidery DST file or the stitch count. Likewise for print, we would require the dimension of the print and number of colours.

7. Does the bespoke price include shipment by air?

The bespoke price does not include the air freight cost but it does include sea shipment. Upon completion, you have the choice to choose the mode of shipment either by Sea or Air.

8. What is the cost and shipment time by air?

The cost varies and is subject to the cost what the airline charges on the day goods are shipped. The air freighted goods are scheduled to arrive within 10 working days into UK.

9. What are your standard terms of payment for bespoke orders?

Performa Customers: We require a 50% deposit on taking an order for a bespoke product. The balance is due on delivery of the finished item.

Credit Limit Customers: We require a 50% deposit on taking an order for a bespoke product subject to the credit limit and balance as per the terms.

10. Are the factories ethical and what certifications do they have in place?

The factories work to ISO9001 and ISO14001 standards and are WRAP certified.

CARING FOR YOUR UNEEK GARMENT

WASHING

Before washing, always look at the care label and carefully follow the instructions. Most good quality detergents, washing machines and fabrics are manufactured to ensure that when the stated instructions are adhered to and the garment is washed according to the said temperature and dried as per the procedures mentioned; they will wash well and look good after each wash.

The following points should be used as guidelines for all garments:

- *Before washing, close all zips, undo buttons, check pockets for loose or sharp objects, flatten out collars and cuffs.*
- *Always refer to the Label before Washing.*
- *Always check to ensure the Washing Machine is not overloaded*
- *Use a good quality detergent and ensure that the right amount of detergent is used.*

PRINTING

Owing to the numerous processes and techniques used for printing on garments, we strongly recommend that a single garment is printed on, then washed and tested to ensure it meets your requirements before bulk printing. Care should be taken to ensure the right kind of pigments/printing dyes are used while printing and the optimum temperature/heat levels are not exceeded. Violation of standards and procedures will result in the garment losing its feel/lustre as well as weakening of the fabric and overall garment performance.

FAQ

GARMENT SHRINKAGE

Excessive Shrinkage is primarily due to factors such as heat and major agitation during the wash cycle. Always wash as per instructions stated on the care label.

FADING DUE TO SUNLIGHT

The effects of fading due to Sunlight are both harmful & irreversible. Constant and prolonged exposure to sunlight should be reduced as far as possible.

PILLING & BOBBLING

Abrasion and lack of care/timely washing of the garment leads to fibre balls appearing on the surface of the fabric. Remove by mild surface brushing.

TRIMS/ACCESSORIES BREAKING OFF

Trims & accessories like zippers, toggles, pocket lining and elastic cords are constructed for normal usage. Extensive abuse of the garment involving sharp objects, work areas with machinery and even the odd outburst of brute force results in the garment being damaged. Precaution & Care should be taken at all times.

COLOUR STAINING

Wash similar coloured garments together. Do not leave damp garments together for any length of time.
